MIMOSA SYSTEMS AWARDED MICROSOFT ISV STAR PARTNER AWARD

Mimosa Systems Chosen by Microsoft for Exceptional Integration Ability and Channel Strength

Santa Clara, Calif. — Dec. 18, 2007 — Mimosa Systems™, a leading provider of Live Content Archiving solutions, today announced that it has received the ISV Star Partner Award for the Microsoft SMS&P NY Metro District. The award recognizes Mimosa as the 2008 outstanding independent software vendor that exemplifies exceptional integration with the community and has a channel and partner ecosystem to bolster aspects of the business, grow revenue, and integrate applications with Microsoft solutions. Mimosa is also recognized as a Microsoft Gold Certified Partner—among a select number of Microsoft partners to gain this distinction.

This coveted Microsoft recognition is the latest in a growing list of awards for Mimosa. Earlier this year, Mimosa's NearPoint™ for Microsoft® Exchange Server solution was cited as TechTarget's SearchExchange Product of the Year. With hundreds of entries each year, this recognition is considered a benchmark for excellence throughout the computer industry. NearPoint was also recently named a Top 10 Product by Network World and named one of five "Storage Standouts." Additionally, Mimosa received accolades in the channel as a Top 75 Emerging Vendor by CRN magazine.

Mimosa NearPoint is tightly integrated with Microsoft Exchange Server and addresses critical customer requirements for email information archiving, eDiscovery, regulatory compliance, data protection, disaster recovery and storage optimization. The solution enables litigation readiness, business continuity and end-user search while reducing overall operational costs.

"We are especially proud to receive the Microsoft Star Partner Award because it again recognizes the close relationship between Microsoft and Mimosa. We've added several significant project wins, many new channel partners and deepened our contacts within Microsoft and the Partner Community. We value our position as a trusted Microsoft partner and look forward to continued successes in the email archiving space," said Christopher Culine, senior vice president, worldwide sales, at Mimosa Systems.

About Mimosa

Mimosa Systems, Inc. delivers next-generation information management solutions for information immediacy, discovery, and continuity. Mimosa NearPoint for Microsoft Exchange Server is the industry's most comprehensive information management software solution for Microsoft Exchange, unifying email archiving, recovery, and storage management. With options for eDiscovery and disaster recovery, NearPoint ensures litigation readiness and email continuity while leveraging cost-effective disk technologies to optimize email storage growth. Mimosa is a Microsoft Gold Certified Partner, recognized for its competencies in networking infrastructure solutions, ISV/software solutions, and advanced infrastructure solutions. Mimosa is a privately held company whose investors include August Capital, Clearstone Venture Partners, Dot Edu Ventures, JAFCO Ventures, and Mayfield Fund. Mimosa was founded in 2003 and is based in Santa Clara, California, with offices in Munich, Germany and Pune, India. For more information, see www.MimosaSystems.com.
