DATACORP BECOMES AUTHORIZED MIMOSA SYSTEMS RESELLER

*DATACORP Offers Mimosa NearPoint to
Archive, Discover and Protect Critical Microsoft Exchange Data*

Ft. Lauderdale, Fla. and Santa Clara, Calif. – April 10, 2007 – DATACORP, a leading Florida IT consulting and systems integration provider, and Mimosa Systems™, a leader in Live Content Archiving solutions, today announced that DATACORP has become a member of the Mimosa Partner Advantage Program.

As an authorized Mimosa Systems reseller, DATACORP is offering its customers Mimosa NearPoint™ for Microsoft® Exchange Server, a revolutionary email management platform that combines email archiving, eDiscovery, regulatory compliance, data protection, disaster recovery and storage optimization into a single, powerful solution.

"Microsoft Exchange has clearly become the most critical application for our customers," said Hugo G. Perez, co-founder and managing director, DATACORP. "Companies are finding that to comply with new government regulations they must archive email, calendar items and contacts based on policies and be able to quickly discover information contained in email archives when called on for litigation or compliance reasons. Companies across the board recognize that they must be able to ensure reliability and protection of their email data. Mimosa NearPoint is the most innovative and comprehensive solution available to meet all of these growing Exchange management needs. We are pleased to become an authorized Mimosa reseller."

"DATACORP is recognized for its superior consulting and services and Mimosa Systems is pleased to have them among its list of Partner Advantage Program members," said Gerry Callanan, director of channel sales, Mimosa Systems. "DATACORP clients will benefit from the powerful combination of superior DATACORP system integration services and Mimosa NearPoint's next-generation email archiving architecture."

Designed to help drive revenue quickly in a high-demand market, the Mimosa Partner Advantage Program offers three tiers of participation – Referral, Gold and Platinum – for value-added resellers, consulting services partners and systems integrators. Mimosa channel partners provide services and solutions for helping clients establish policies for retention and disposition of email, support legal discovery requests, help with Exchange migrations, implement disaster recovery strategies, as well as integrate storage with archiving software into a comprehensive solution.

About Mimosa NearPoint

Mimosa NearPoint addresses critical customer requirements around email information archiving, eDiscovery, regulatory compliance, business continuity and storage optimization. Mimosa NearPoint provides immediate mailbox and message recovery, disaster recovery, email archiving, and self-service search and access in one solution. By leveraging cost-effective storage, NearPoint also optimizes e-mail storage and reduces overall infrastructure costs.

About DATACORP

DATACORP was recognized by Microsoft Corporation as their South Florida Partner of the Year in 2003-2006. The company engages in "I.T. Consulting and Systems Integration" which involves the practice of bringing smart people, best practices, and technology in the right combination, to solve the problems of systems high-availability and business continuity. DATACORP (www.data-corporation.com) provides Network Computing, Storage, Security, and Support Solutions, typically on a project basis, but also offers a pre-paid support program to help keep client systems in "Steady State."

About Mimosa
