*Email Archiving Solution Provider Recognized for Leadership
In Emerging Technology and Global Business Potential*

Santa Clara, Calif. – July 23, 2007 – Mimosa Systems™, a leader in Live Content Archiving solutions, today announced that it has been chosen by AlwaysOn as one of the AO 100 Top Private Companies for 2007. The fifth-annual elite AO100 list was compiled by the AlwaysOn editorial panel. In order to be eligible for the AO100 list, companies had to be peer-nominated. AlwaysOn received more than 1,000 nominations from venture capital investors, investment bankers and other industry experts.

Mimosa Systems and the AO 100 Top Private Companies for 2007 will be honored at the AlwaysOn Stanford Summit to be held July 31 – Aug 2 at Stanford University. The Stanford Summit is a two-and-a-half-day executive gathering that highlights the significant economic, political, and commercial trends affecting the global technology industries. The idea behind the AO100 top private companies list is to identify the most promising entrepreneurial opportunities and investments in the global technology industry.

The AO100 Top Private Companies award is the latest in a growing list of accolades for Mimosa and its email archiving solution. Awards received this year for the Mimosa NearPoint™ for Microsoft® Exchange Server software include a Top 50 Emerging Technology award by CRN magazine; Product of the Year in two categories by TechTarget's SearchExchange.com; and a Top 10 Product award by *Network World*. CRN also named Mimosa as one of five "Storage Standouts" and a Top 75 Emerging Vendor in 2006.

"We are proud to be recognized by AlwaysOn as a leader among private companies," said T.M. Ravi, president and CEO at Mimosa. "This award further validates our customer momentum in delivering innovative technology that supports information immediacy, discovery and continuity in one of the tech industry's fastest-growing markets."
