MIMOSA SYSTEMS SEES RAPID GROWTH THROUGHOUT ASIA PACIFIC REGION AS DEMAND FOR EMAIL, FILE AND SHAREPOINT ARCHIVING ACCELERATES TO DECREASE DISCOVERY AND STORAGE COSTS

Leader in Next-Generation Archiving Experiences Strong Customer Growth Across Asia Pacific in Key Industries Including Energy, Finance, Government, Manufacturing and Retail

Santa Clara, Calif. – August 25, 2009 – Mimosa Systems, the leader in next-generation **email, file** and **SharePoint** archiving solutions, today announced rapid adoption in the Asia Pacific region for the company's next-generation Mimosa NearPoint™ archiving solution. Customers throughout the region in Australia, China, Hong Kong, Malaysia, New Zealand and Singapore continue to select Mimosa NearPoint as their archiving solution of choice for email, file and SharePoint information management to address discovery, retention and recovery in a unified offering.

With its Asia Pacific regional presence continuing to grow, Mimosa has partnered with storage partners throughout the region, including Dell, HDS, HP and NetApp. By working closely together, Mimosa and its partners are helping Asia Pacific businesses and government organizations face mounting challenges around data privacy, legal and regulatory compliance and ever growing data storage requirements.

“As a Microsoft Gold Certified partner, Mimosa Systems is equipped with the latest technologies and skills that in turn can help deliver better solutions for its customers,” said Vice President (Asia), for Small and Mid-market Solutions and Partners at Microsoft Corporation, Chris Atkinson. “Customers of Mimosa Systems can be assured of the quality, expertise and professionalism that the company delivers in integrated archiving and eDiscovery solutions that use Microsoft Exchange Server and Microsoft SharePoint Server. We look forward to Mimosa System’s continued partnership in driving growth in Asia Pacific.”

Mimosa’s customer growth throughout Asia Pacific countries spans multiple vertical markets from energy, finance, manufacturing, retail, transportation and government. Significant customers for Mimosa in the Asia Pacific region include: East China Electric Power Design Institute, China Career International Consulting, and AllTrust Insurance Company of China Limited in China; Provident Capital Limited in Australia; Mydin Mohamed Holdings in Malaysia; National Oxygen Pte, Ltd., and STATS ChipPAC, Ltd. in Singapore.

Customers Standardize on Mimosa as Unified Content Archive of Choice

“Mimosa NearPoint is a next-generation email archiving solution that solves multiple problems for managing Microsoft Exchange storage,” said A. Muthumariappan, IT manager, National Oxygen Pte, Ltd. “Using NearPoint we can remove unwanted emails from Exchange while end-users enjoy self-service access to all their archived email content. We can also use NearPoint to archive offline PST files which solves major legal and storage issues for us. It is exactly the comprehensive archiving solution we were looking for.”

“Mimosa NearPoint has helped us solve critical issues around email recovery, archiving and storage management,” said Lee Teck Guan, director corporate IT, STATS ChipPAC, Ltd. “We selected Mimosa NearPoint over other vendors for its next-generation architecture, seamless integration with Microsoft Exchange and recovery features. Overall, NearPoint has proven successful in solving our critical Exchange challenges, providing us with real productivity gains.”

-More-

“We have been using Mimosa NearPoint for a year now and we have had a great experience with this product,” said Nick Corrie, IT director, Provident Capital Limited. “Our days of corrupted PST files and lack of central control over email archiving are over, and we have also made use of some of the compliance features of the product. We are very impressed by the engineering support that Mimosa offered us either over the phone, or locally in Australia. I’d highly recommend this product to anyone wanting to take efficient and rigorous control over their Exchange archival and compliance requirements.”

Mimosa NearPoint is a superior solution for businesses and government organizations throughout Asia Pacific because it offers a unified approach for integrated content archiving, **storage optimization**, information access and search, eDisclosure, **eDiscovery**, regulatory compliance, data protection, and disaster **recovery**. The solution also enables litigation readiness, business continuity and end-user search while reducing overall operational costs. For companies in China and Japan, NearPoint has been localized for Traditional and Simplified Chinese, and Japanese.

“The Asia Pacific region is an area rich with tremendous opportunity for Mimosa,” said T.M. Ravi, CEO, Mimosa Systems. “We are seeing exponential growth in customers in the region and a solid brand presence that will propel our continued success.”

As part of its continued expansion strategy, Mimosa is actively recruiting potential partners and resellers in each country throughout the Asia Pacific region. For more information, please contact: asiasales@mimosasystems.com.

About Mimosa NearPoint

Mimosa NearPoint addresses critical customer requirements around archiving, eDiscovery, regulatory compliance, business continuity, and storage optimization in a unified solution. Mimosa NearPoint proactively captures email, files, SharePoint content and instant messages; and provides legal search workflow, employee supervision, immediate mailbox and message recovery, disaster recovery, and self-service search and access in one solution. By leveraging cost-effective storage and advanced classification rules, NearPoint also optimizes content storage and reduces overall infrastructure costs.
