**MIMOSA SYSTEMS ANNOUNCES UNIFIED INFORMATION MANAGEMENT BEST PRACTICES
SEMINAR SERIES FOR MICROSOFT EXCHANGE SERVER**

*11-City Seminar Tour Presents Strategies for Developing Comprehensive Email Archiving, Data Protection
and Disaster Recovery for Microsoft Exchange Server*

Santa Clara, Calif. – September 11, 2006 – Mimosa Systems™, a leader in unified information management solutions for enterprise content, today announced a joint 11-city seminar series tour with Microsoft Corp. that will present the new enhancements in Microsoft Exchange Server 2007 and best practices for enterprises looking to manage information using Exchange Server. The multi-city series will travel coast to coast to offer real-life lessons and case study examples designed to help attendees understand how to best manage their Exchange Server messaging solution.

Seminar sessions will include the following presentations by leading Exchange Server experts:

- **Exchange Server Analyst Keynote Address:** Exchange Server expert, Lee Benjamin, will present best practices for managing the growing Exchange Server email volume to ensure email continuity and the full data capture required to comply with increasing regulations.
- **Exchange Server Best Practices & Technical Discussion:** Microsoft experts will introduce the new Exchange Server 2007 platform.
- **Mimosa NearPoint™ for Exchange Server Solution Overview:** Mike Ivanov, vice president product marketing, Mimosa Systems, will demonstrate how NearPoint™ seamlessly integrates with Exchange Server and Microsoft Office Outlook to provide archiving, eDiscovery, recovery, and storage management.
- **Technical Case Study:** Real-life examples will illustrate how Mimosa NearPoint has helped organizations effectively maximize their messaging environment by providing search and eDiscovery of archived email, "super-sized" mailboxes, PST archiving, and immediate database, mailbox and message recovery.

"Mimosa builds solutions to help enterprises manage challenges related to email discovery, disaster recovery, and storage growth," stated Pradeep Rathinam, General Manager US ISV at Microsoft. "This seminar series promises valuable educational content designed for messaging and Exchange directors and others involved in meeting compliance and legal discovery requirements. By bringing together Microsoft and industry experts, this series will offer insights and best practices for the Microsoft Exchange platform in order to help customers manage legal risk, reduce operational costs and improve Exchange continuity."

Seminar Series Schedule and Registration

The seminar series will be visiting Microsoft offices in 11 cities on the dates listed below:

- September 11 – 12 p.m. to 5 p.m., Nashville, Tenn. (lunch included)
- September 12 – 8 a.m. to 1 p.m., Raleigh/Durham, N.C. (lunch included)
- September 13 – 8 a.m. to 1 p.m., Atlanta (lunch included)
